

To whom it may concern:

March 12, 2011

*Impacts of the quake to our business*

We hereby announce the effect of the huge earthquake occurred throughout Japanese Tohoku district at 14:46 in March 11 Japan time.

● Production operations

There are not serious damages to the production facilities in our Joban Factory (Iwaki-shi, Fukusima).

We tentatively suspended all production operation until we make sure the safety of all facilities and systems and we are now making every effort to return to the normalization as earliest possible. However, because of the discontinuation of the water supply and other potential factors, we are not sure when we can restart the operation at this moment.

● Products deliveries

We regret to inform you in advance that we may not comply with the punctual fulfillment even for the outstanding orders because of the total productions suspension and traffics and logistics although we will make a best effort.

Please understand our situation occurred at our production site, and ask for your cooperation.
