To whom it may concern:

Notification for Typhoon “Hagibis” Effects

We, Yuki Gosei Kogyo Co., Ltd, would notify the following information regarding the impact on our Joban Factory located in Iwaki City, Fukushima Prefecture, Japan.

1. Our current situation

Fortunately the employees and their families were unwounded and our facilities avoided extensive damage, however they were flooded partially by the rains and the production equipment, packaging material, etc. got wet. It is expected that it will take around a week to restart the production.

On the other hand, there is no damage to the warehouses , so there is no obstacle to ship our products out.

At present, we are eagerly proceeding with confirmation and preparations for resuming the production and will continue to make our efforts to meet your expectation.

2. Impact on business performance

Now we are investigating the impact on business performance affected by this typhoon, and if necessary we will release the further information.
